

Every Mission-Critical Device. **Always Ready.**

Datamation products help organizations intelligently charge, manage, sync and secure large fleets of shared mobile devices. Elegant ease of use, efficiency and reliability are built into everything we deliver so you can:

Fully leverage and protect your technology investment for a fraction of the cost of that investment

Simply, reliably and securely manage, charge, sync and store large fleets of shared devices

Ensure every device is ready to work the moment it is needed

Empower employees to be more efficient and productive, saving time and money

DATAMATION
Systems, Inc

Intelligently charge, manage, sync and secure the way that suits you best.

Large phone and tablet fleets:

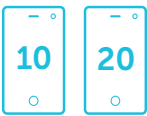

Drop + go

UniDock® Intelligent Docking Stations

For common fleets

Get ultimate ease of use with Datamation's patented drop-in technology.

Manage, charge and sync—in the easiest possible way. Simply drop your device into the docking station and go. No cable chaos.

Protect one of your most costly yet critical investments. Future-proof, reliable and robust. Universally compatible with nearly any device, case, connector and operating system.

Unleash more productivity with elegant simplicity. Intuitive design makes it easy for employees to use and IT teams to deploy, saving everyone valuable time.

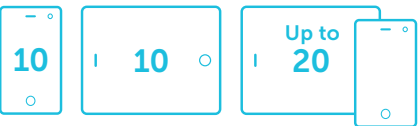

Connect + go

UniDock® Trays

For varied device fleets

Connect to more device charging flexibility and power per square inch.

Streamline essential mixed fleet management tasks in one compact spot. Perfect for varying fleet sizes, connectors and devices. Adaptable for tomorrow's devices for a future-proof investment.

Gain efficiency with two-step simplicity. Simply plug the cable into the device and place it in the tray to charge and sync. Superior cable management and ease of use is built into every tray.

Manage, charge and sync—seamlessly. Intuitive and versatile. Easy for employees to use and IT teams to deploy, saving everyone valuable time.

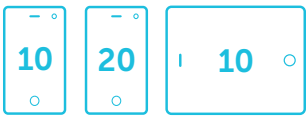

Tap + go

Component Base and Badge Reader

For secure device check-out

Streamline shared device use with automated, secure check-in and checkout.

Simplify and secure shared device check-in / checkout to reduce device loss and IT burden.

Flexible support for both UniDock Intelligent Docking Stations and UniDock Trays.

Base houses a host computer; an optional badge reader enables tap-and-go integration with Imprivata Mobile Application Management (MAM).

Education technology fleets:

Secure, manage + charge

Univault Cart

For robust management

Security and simplicity in one powerful cart.

The ultimate in cart security. A three-point locking system and locking rear access panel keep devices safe.

Support student achievement. Students have easy access to always-ready Chromebooks and laptops.

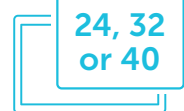

Easy to set up and use. Our QUICK SET feature and other innovations ensure you're up and running—in minutes.

Gather'Round™ Cart

For maximum accessibility

Ergonomic design with easy device access.

Distribute devices with ease. Sliding top-load doors and easily removable trays make device access simple.

Flexible for different devices. Adjustable tray heights hold a range of Chromebooks, tablets and iPads.

Security and convenience are built in. A push-button lock and included cable management system enable fast setup.

Parotec T36 Cart

For maximum flexibility

Flexible device management and charging.

Extreme user friendliness. Numbered, pullout shelves make it easy to access Chromebooks, laptops, tablets and iPads.

Ergonomic design. Recessed side handle; compact and lightweight to easily maneuver within the classroom.

Protect devices with ease. Secure locking system with the flexibility to use your own lock, plus a locked rear panel.

NetSafe and Wall Safe
Cart-like security for smaller device fleets and spaces. Ultra-compact designs optimized for 12-20 devices.

A complete solution and support ecosystem.

Mobile. **Ready.**

Our team is deeply committed to delivering every product flawlessly, knowing that what we provide is mission-critical for our customers. Products are proudly designed and made in America—and backed by our dedicated support team.

Get off to the right start.

We work with every customer to deliver the best solutions for their unique requirements.

Manage devices without trade-offs.

Select from a wide range of options to get the device management capabilities your organization needs.

Maximize Your Mobile Technology Investments

Protect your investment.

We're with you every step of the way, with flexible service plans and the personalized support you deserve.

Unlock more value.

Racks, cabinets and custom storage and security solutions for added protection and convenience.
